OBJECTIVE

Seeking a challenging position where I can leverage over 2.5 years of hands-on experience in Java, Oracle PL/SQL, and Spring. Proficient in Agile methodologies and repositories like GitHub, I aim to contribute effectively to dynamic projects. Committed to delivering high-quality software solutions while advancing my skills in software development and collaborative team environments.

TECHNICAL SKILLS

Languages	Java, Oracle, PL/SQL
Frameworks	Spring
Tools	Cronacle Redwood, BMC Remedy, Spring Tool Suite, Octane, HPALM, SQL Developer, WinSCP, Putty, SoapUI, DBeaver, Microsoft Visual Studio Code
Repositories	GitHub

EXPERIENCE

INFOSYS

Senior Systems Engineer	Jan 2024 – Present
Systems Engineer	Nov 2021 – Dec 2023

PROJECT

Southern California Edison

SCE is the largest subsidiary of Edison International and the primary electric utility company for much of Southern California. It provides 15 million people with electricity across a service territory of approximately 50,000 square miles. We support client applications which does daily energy and price forecast for southern part of California.

Technologies

Java, Spring, Oracle, PL/SQL

Key Responsibilities

- Develop Java, Spring applications to create fully automated client management systems through SOAP API, lead the application development process through analysis of the system requirements.
- Design and develop new solutions for clients following Agile methodologies.
- Develop Oracle PL/SQL packages, procedures and functions.
- Identify and troubleshoot issues in existing code and resolve them.
- Assist technical lead in defining architecture.
- Mentor and guide team members to achieve project goals.
